THE DIFFERENCE

EVERY OTHER TOOL

~~Shows you a dashboard of stock levels~~

~~Sends an alert when you're already too late~~

~~Tells you what happened~~

~~You still decide what to order and when~~

~~Black box — you don't know why it flagged something~~

~~Generic AI layered on old architecture~~

~~Works for Amazon OR Shopify~~

VS

STOCKSENSE AGENT

Reasons through your data like an ops manager

Predicts stockouts **weeks before** they happen

Tells you what to do — and **exactly why**

Generates purchase orders **autonomously**

Explains every decision in plain language

Born AI-first — agent architecture from day one

Amazon + Shopify + WooCommerce + **all channels**

HOW IT WORKS

**The agent
that reasons
out loud.**
